"LEST WE FORGET"
September 10, 1994

The early Christian roots of Phillips Chapel United Methodist Church were planted deep with a love for Christ and for each other. This love has manifested itself through the Christian witness that has been passed from one generation to the next.

We shall always be grateful to those who have gone before us; running the race that was set before them. They shall live in our hearts as long as we remember and respect them for their contribution to the Kingdom and family of God.

We believe that our cemetery is a vital part of our church, not only because of its location to the church, but because without those who have lived and died in the Christian faith, Phillips Chapel would probably not exist today.

The Judeo-Christian faith has always respected its dead and burial grounds. We find that when Jesus appeared to Mary after the resurrection, she thought he was the gardener; indicating that a care-taker had the responsibility of the burial site.

We accept the responsibility that has been passed on to us here at Phillips Chapel by honoring and remembering those who have left us a legacy of Christian living and dying. Our pledge is to maintain that which has been passed down to us; and that which has been inherited is the Christian nurture and the facilities that God has blessed us with.

Our goal and prayer is to continue to maintain the outreach and nurture in the Christian faith, and to leave our children a place of worship for the living, and a place of rest for our beloved dead.

In His Great Love,

Ebern Allen

NOTES ON THE BURIAL GROUND INSCRIPTIONS

Phillips Chapel UMC is thought to have been organized prior to 1849 and was called "Methodist Episcopal, South" on the old deed to the property. The church is located approximately 6 miles east of Graham off NC 54 on Brucewood Road, at the intersection of Brucewood Road and Phillips Chapel Road. Tradition assert that graves were on the property prior to 1849. The oldest grave stone that can now be read is that of an infant son of William and Catherine Clendenin Turner. That burial was on October 17, 1852 and is located at 1.19.3. William and Catherine are buried at New Providence cemetery near Graham, N.C. It has been known for sometime that some of the original field stones, those without any inscriptions on them, were replaced with markers in the ground to facilitate caring for the grounds.

The cemetery lies behind the church and is sectioned off by graveled roads. See the page on how to locate a given grave. To my knowledge no stone with an inscription on it has been relocated.

The churchyard contains over 1000 persons who's identity is known. The inscriptions are copied exactly as written and often give interesting insights into the customs of the locality and of the time, as well as the taste and means of the individual families. Most of the family names are those of original settlers in the community who emigrated from Pennsylvania, Delaware, Maryland and Eastern North Carolina.

In using this material for genealogical research it should be noted that dates and spelling on a given stone are not always accurate. The stone may have been erected many years after the death of the individual or the survivors may not have known his or her exact birth or death dates nor age. It should be also noted the use of a middle initial in the name of a married woman did not always refer to her maiden name, but rather the middle name she had been given at birth. However, that is not always the case.

These inscriptions were copied, plotted and compiled by James E. (Bill) and Ann E. Teer (Section 1), Jerry K. (Duke) Ray (Sections 2 and 5), Nina Childress (Section 3) and Duard and Nellie Farrell (Section 4) in late August, 1994. Copies of this book can be purchased by contacting the church office or the person below.

There are over 126,967 type characters in this book. We will not be surprised if there are a few errors. Please bring to our attention any errors that are discovered and we will make corrections in the next issue of this directory.

BURIALS IN THE OLD SECTION (SECTION 1) OF Phillips Chapel CEMETERY

To find where a given person is buried, look at the number after that person's name. The first number is the section number. Section 1 is for the old section, that is the area immediately behind the church and bounded by either a road or the church yard. The second number is the row number, starting at the "Frazier" tomb stone on the corner, nearest the picnic tables. The third number is the stone or foot marker down that row. The row numbers will be according to the first prominent stone on each row. For example row 1 starts at Frazier, row 2 starts at Teer, John G., and row 3 starts at Neese, W. Cicero, etc. Section 1 rows will start at the following identified stones. Note: IF THERE ARE TWO NAMES ON A GIVEN STONE THEN IT IS COUNTED AS TWO STONES FOR NUMBERING PURPOSES.

Row 1 Frazier stone	Row 14 Phillips, George L.
Row 2 Teer, John G.	Row 15 Lankford, Cally C. (Short row, starting half way down other rows)
Row 3 Neese, W. Cicero	Row 16 Bradshaw, C. William (Short row, starting about half way down other rows)

BURIALS IN THE OLD SECTION (SECTION 2) AND IN SECTION 3 OF Phillips Chapel CEMETERY

To find where a given person is buried, look at the number after that person's name. The first number is the section number. Section 2 is for the old section, that is the area immediately behind and to the right of the church and is bounded by either the remains of a fence, a road or the church yard. The second number is the row number, starting at the "Thompson, William S." tomb stone. Section 2 has traditionally been considered to be the black person's part of the cemetery. It is now known that whites are also buried in this section. Section 2 rows will start at the following identified stones:

Section 3 is the section back of the old section (Section 1) separated by a gravel road between Section 1 and Section 3. Note that Section 3 has a road all around it and contains the very large stone cross. The second number is the row number, starting at Wood, Jasper N. (Note this is at the opposite side from the large stone cross.) IF THERE ARE TWO NAMES ON A GIVEN STONE THEN IT IS COUNTED AS TWO STONES FOR NUMBERING PURPOSES.

BURIALS IN SECTION 4 & 5 OF Phillips Chapel CEMETERY

To find where a given person is buried, look at the number after that person's name. The first number is the section number. Section 4 is the section back of the old sections (Section 1 & 2) separated by a gravel road between Section 2 and Section 4. Note that Section 4 has a road all around it and is to the right of the large stone cross. The cross is not in Section 4. The second number is the row number, starting at Ausley, Annie M. The third number is the stone or foot marker down that row. The row numbers will be according to the first prominent stone on each row.

Section 5 is the newest part of the cemetery and presently has only two graves in it. It is across the gravel road to the right of the church.

Note: IF THERE ARE TWO NAMES ON A GIVEN STONE THEN IT IS COUNTED AS TWO STONES FOR NUMBERING PURPOSES.
